

THE CEDAR

5oz Traceable Recycled Cotton

Description

Just as you can trace a cedar tree's rings through time, you can trace our bags back to their recycled source. This bag is specifically made from recycled offcuts of cotton combined with recycled plastic bottle tops acting as a binding agent to construct the bag. Like the Cedar tree that stays green all year-round, our bags help keep the planet evergreen by using recycled materials. We give to you "The Cedar"
